DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Claims 8-12, 14-15, and 36 are allowed because the prior art fail to teach or suggest the claimed invention.

Applicant arguments in page 6 of the response, received on March 18, are persuasive.

It is further note that Jewel (US 20010019566) fails to teach or suggest the second mirror (top mirror) comprising a partially oxidized layer for confining current. Instead of using the second mirror for confining current, Jewel uses other layer between the first and second mirror as current confining layer with oxidizing process.

Johnson (US 7110427) discloses a VCSEL which includes top mirror having oxidized region to confine current. However, Johnson does not teach or suggest to use AlGaInAs as non-oxidized layer for the first mirror. Johnson, instead, discloses InP as non-oxidizing material (col. 6, lines 33-35).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
